REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art neither discloses nor makes obvious an ejector ramjet engine suitable for use with a flying vehicle in a range of speeds from zero to hypersonic flight comprising a mixer with an injector assembly having plural injector exhaust nozzles which are alternatively offset radially at an angle away from and toward the engine longitudinal axis, a diffuser, a combustor, an exit nozzle and an inlet with a variable inlet system attached to the mixer which is located downstream therefrom.

The applicant's arguments, particularly the arguments set forth on page 11 lines 1-4 and 11-18 have overcome the 35 USC 103 rejections under Boehnlein et al and Bichler et al.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
